Arab Federation of Exchanges (AFE)

The Arab Federation of Exchanges (AFE) was established in June 1978 by the League of Arab States. The Arab Federation of Exchanges is the official Regional Federation representing the Arab Exchanges and works in close cooperation with the World Federation of Exchanges (WFE) and the Federation of Euro-Asian Stock Exchanges (FEAS).

The Mission of the Arab Federation of Exchanges is to create a transparent and developed environment for the Arab Capital Markets, to reduce the barriers of securities trading across the countries, to enhance the communication among its members and to coordinate their activities with the Regional and International partners.

The Headquarter of the Arab Federation of Exchanges is located in Beirut, Lebanon.

Sheikh Khalifa Ebrahim Al-Khalifa, the Chief Executive Officer of Bahrain Bourse is the Chairman of the AFE for the current exercise.

Derivatives, a Must not a Luxury

Confused by the Capital Market volatility, an investor asked:

Q: I invested my money in the capital market but here it is wildly, fluctuating in all cross directions. I agree that the Blue Ships I am holding have solid fundamentals, hence promising an upward rebound. These are the stocks I have planned to inherit to my children; I am standing here now wondering what should I do?

A: As long as you are confident of the real value of your stocks, let me comfort you with the quote of the richest businessmen in the history of mankind, John D. Rockefeller saying on the Depression in 1933: "These are days when many are discouraged. In the 93 years of my life, depressions have come and gone. Prosperity has always returned and will again."

Q: This instability is testing the brink of my patience; it is hitting me really hard, leaving me wondering about my investments. I am indeed well experienced in this field, yet, I remain human after all, I get affected by the circumstances, and uncertainties make me anxious.

I am like others looking for the bottom. What if I sell today and buy when we hit the bottom?

A: The most dangerous behavior is when the investor becomes a speculator whenever the market becomes volatile, and the speculator becomes an investor refusing to realize his losses.

Q: No matter how experienced is the investor; these fluctuations destroy his confidence in his strategy and put him in doubt. The market fundamentals might have changed or maybe I have misestimated the data: the drop in oil prices, China slow down and the uncertain trend of the international stocks lead to a confusion state. What can be done?

A: So cover your risk by hedging your positions.

Q: How so?

A: If you feel worried regarding the oil price drop, you can sell oil derivatives contracts. If you feel also anxious about the international stocks breakdown, you can sell the derivatives of international stocks. As long as you are convinced of the solid fundamentals of your stocks, then you might keep them until this correction phase is over.

Q: But I invested in the Arab Markets where there are no hedging mechanisms.

A: Then, hedge your position on Arab markets with adequate derivatives on the international markets.

Q: Do you think I'll be able to hedge through derivatives on the Arab markets and feel safe during fluctuations in the near future?

A: Derivatives are a must and not a luxury, so we all hope it will happen soon on our Markets.

Dr. Fadi Khalaf

المشتقات ضرورة لا ترفاً

سأني مستثمر ضاع في تقلبات أسواق رأس المال قائلاً:

س: لقد إستثمرت أموالي في أسواق رأس المال وها إنها تتقلب في كافة الإتجاهات. يقولون بأنّ الأسهم القيادية التي أملكها في محفظتي ذات أساسيات صلبة وأنها لا بد أن ترتد صعوداً وإنني أوافهم الرأي. وقد قررت أن أحفظ بأسهمي لأورثها لأولادي من بعدي، فما العمل؟

ج: ما دمت واثقاً من القيمة الفعلية لأسهمك إذاً تذكر قول كبار رجالات المال، ومنهم جون روكلفر أغنى أغنياء العالم بأن الأزمات تأتي وتذهب إلا أن النمو كان يعود دوماً في نهاية المطاف.

س: لكن التقلبات المرحلية تدمي قلبي كما محفظتي وقدرة إحتمالي. فأنا وإن كنت من كبار المستثمرين وأصحاب الدراءة، لكنني ما زلت إنساناً يتفاعل مع ما يجري ويifax من ما يجهل. إنني كغيري أبحث عن الواقع وأشعر بالهلع عند الإنهيارات القوية. ما رأيك لو أبيع اليوم وأشتري متى وصلنا إلى الواقع؟

ج: إنّ من أخطر ما يواجهه المستثمر هو أن يتحول إلى مضارب عند تقلب الأسعار، وأن يتحول المضارب إلى مستثمر متى عاكسه السوق.

س: مهما كان المستثمر متربساً، إلا أن السوق بتقلباتها تضعف ثقته ببستانيجيته وتضعه في موضع الشك بها. قد تتغير المعطيات أو أكون قد أخطأ بحساباتي، فأسعار النفط تتهاوى والإقتصاد في الصين يتباطئ والأسهم العالمية غير واضحة الإتجاه. فما العمل؟

ج: تحوط إذاً

س: وكيف هذا؟

ج: إذا كنت تخشى إنهيارات أسعار النفط فيع عقود المشتقات على أسواق النفط وإذا كنت تخشى من إنهايار الأسهم العالمية فيع أيضاً عقود المشتقات على الأسهم العالمية، وإبقى على أسهمك إلى حين إنتهاء الحركة التصحيحية في الأسهم التي تحملها في محفظتك إلى أن تحط العاصفة رحالها، طالما أنك واثق من أساسياتها.

س: لكنني إستثمرت في الأسواق العربية وما من آليات تحوط عليها.

ج: إذاً إستثمر فيها وتحوط على الأسواق العالمية.

س: هل تعتقد أنني سأتمكن يوماً من التحوط عبر المشتقات على الأسواق العربية فأشعر بالأمان خلال التقلبات المرحلية؟

ج: نعم يا صديقي، لأنّ المشتقات ضرورة وليس ترفاً.
